

# TRILIGHT TECH SPECS

## TRILIGHT

Three-light, ultra bright LED accessory for R-Cam 1000 and R-Cam 1300

TriLight is an Auxiliary Lighting System to supplement the standard lighting of the R-Cam 1000 and R-Cam 1300. TriLight consists of three military-grade dive lights. Two AA batteries power four high intensity Nichia LEDs in each light for up to 20 hours of illumination.

These lights are mounted to the camera via an adjustable stainless steel collar and set screws for supplemental side or forward view light, expanding the viewing range of the camera to accommodate well diameters of 14 to 20 inches (35.6 to 50.8 cm).

## LIGHT SPECIFICATIONS

- Three military-grade dive lights
- Pressure rated to 1,300 feet (396.2 m) of submergence
- Powered via easily accessible AA batteries
- Four high intensity Nichia LEDs in each light
- 20 hours of light
- Lamp life of 10,000+ hours
- 38 lumens per light
- Mounted by adjustable stainless steel collar
- Removable rubber glare guard to focus the beam
- Limited Lifetime Warranty
- Made in the USA

U.S. Patent #6,168,288
